Success in Water & Wastewater Management Begins with Isratech Waterworks

This free technical workshop and factory tour will be hosted by the executive of Isratech Jamaica Limited ("IJL"), with presentations and engagement sessions lead by the technical team of Isratech Waterworks, a division of IJL.

The workshop is designed for architects, engineers, developers and building industry project managers, charged with the responsibility of delivering complex projects on time and on budget. Topics to be covered relate to complex issues of water treatment and wastewater treatment, including cost management, application of new technologies and sustainability modelling.

ISRATECH WATERWORKS
MAKING WATER WORK FOR YOU!

Isratech Waterworks ("IWW") offers advanced and highly reliable waterworks solutions. We specialize in water and wastewater treatment, as well as the manufacture and supply of water infrastructure products and systems. We are the most versatile operation of its kind in Jamaica, serving customers locally as well as throughout the Caribbean.
